

Vyaghri haritaki ingredients:

1.	Kaṇṭakārī	(Pl.)	4.800	kg
2.	Water for decoction		12.288	l
	reduced to		3.071	l
3.	Harītakī	(P.)	100	in number*
4.	Guda		4.800	kg
5.	Śuṇṭhī	(Rz.)	96	g
6.	Marica	(Fr.)	96	g
7.	Pippalī	(Fr.)	96	g
	Prakṣepa Dravyas			
8.	Tvak	(St. Bk.)	48	g
9.	Patra (Tvakpatra)	(Lf.)	48	g
10.	Elā (Sūkṣmailā)	(Sd.)	48	g
11.	Nāga (Nāgakeśara)	(Adr.)	48	g
12.	Puṣpa rasa (Madhu)		288	g

Method of preparation:

Take raw material of Pharmacopoeial quality.

Wash, dry and grind ingredient number 1 (Kvātha Dravya) of the formulation composition and pass through sieve number 44 to obtain a coarse powder.

Clean, dry and powder the ingredients number 5 to 11 (Prakṣepa Dravya) of the formulation composition and pass through sieve number 85 to obtain a fine powder.

Clean, dry the ingredient number 3 of the formulation composition and make in to small pieces by removing seeds. Tie the pieces of Harītakī in a *muslin cloth* to prepare a pottalī. Add specified amount of water to the Kvātha Dravya and suspend the pottalī containing pieces of Harītakī in to the vessel. Heat, reduce the volume to one fourth and filter through *muslin cloth* to obtain Kvātha.

Collect the soft pieces of Harītakī from the pottalī (bundle) and prepare fine paste.

Add jaggery to the Kvātha, boil to dissolve and later filter through *muslin cloth*. Add fine paste of Harītakī, subject to gentle boiling and stir continuously during the process.

Continue heating till the preparation reaches the consistency of leha confirmed by the formation of soft ball that does not disperse in water. Stop heating.

Cool to room temp and add powdered Prakṣepa Dravya and honey.

Mix thoroughly to prepare a homogeneous mass.

Pack it in tightly closed containers to protect from light and moisture.
